
Title: Frederick's Log

Author: Frederick, Archeologist

Day 1

Grinhelda grasps it, but I
do not believe the rest
do. Ouzday was a court
mage to King Wolfgang in
the old Kingdom. A mage
of immense skill even
before the time of
Blackthorn and British!
We embark to find a
power greater than any
currently living.

Day 7

Nothing for a solid week,
and then fortune struck!
Ouzday's burial chamber
was uncovered by the
digger girl.

Day 8

Our study of the tomb
goes slow.. Frankly I
expected more of
Ouzday's Tomb. There are
no writings, few servant
tombs, very little
treasure. And.. I can't
seem to find the
Phylactery. Michael also
worries about this. If
Ouzday -was- a Lich at
the end, there should be
a Phylactery somewhere..
If we cannot find it..

Day 9

Cold. It is so cold down
here. We've not found
the Phylactery. Michael
insists we leave, but I
know it has to be here.
And I think I know who
has it.

Day 10

She has the Phylactery.
I'll make her give it up.

She has it. I know she
has it.
